

Ed Rial - Biography

Ed Rial is the Deputy Head of the Undulator Group at Helmholtz Zentrum Berlin, which is responsible for the design, build, commissioning and operation of permanent magnet undulators in the BESSY II and Metrology Light Source synchrotron light sources.

Ed studied for a Masters in Theoretical Physics at the University of Birmingham in the UK, before joining the Insertion Devices Group at Diamond Light Source in the UK in 2008.

In 2019 Ed moved to Berlin, Germany to support Atoosa Meseck in the Undulator Group of HZB, working on new in vacuum and cryogenic devices, as well as working towards the future BESSY III facility.
