

# 22nd International Magnetic Measurement Workshop (IMMW22) - Virtual

**Monday, September 26, 2022 - Friday, September 30, 2022**

## Scientific Programme

## Overview

Overview of magnetic measurement activities in a given lab  
Presentation of large projects

## Sensors

Hall sensors  
NMR probes  
Rotating coils  
Search coils  
Any other topic related to magnetic measurement sensors

## Measurement reports

Measurement reports

## Instruments

Magnetic measurement benches  
Bench subsystems  
Integrators, acquisition boards, low noise voltmeters  
Magnetometers  
Any other instruments

## Methods

Method oriented talks  
Emerging measurement methods  
Advanced analysis, e.g. "exotic" multipole expansions  
New wire based or rotating coil based method

## Fiducialization and alignment

Magnet alignment  
Fiducialization topics
